

## TWO-HOUR SEMINAR

December 4, 2008

### HOW TO USE A GPS IN A NAUTICAL ENVIRONMENT!

This seminar shows you how to operate your GPS - what the buttons do, what the screens show, and how to access the functions you need. A handheld GPS is used as the demonstration model, but all GPS receivers function similarly. By the time you have completed the seminar, you will be able to store waypoints into your GPS, activate them for navigation and use GPS to keep you on a safe, pre-qualified course of your choosing. You'll also get some tips for selecting a GPS if you don't currently own one. You will get a copy of the *USPS GPS Guide* and a waterproof McGraw-Hill Captain's Quick Guide *Using GPS* to take aboard to remind you of the steps, or to show another of your crew how to use your GPS.

Seminar is taught by an experienced member of the United States Power Squadrons assigned to the local Diablo Sail and Power Squadron. This next seminar will be held on December 4, 2008 at the Acalanes Adult Education Center, 1963 Tice Valley Blvd.; Walnut Creek, California 94595. Please be there by 7pm to sign-in and obtain your class material. The seminar will commence at 7:30pm and last until 9:30pm. The cost is \$35.

Pre-enrollment for the session is necessary and you may do so on-line at our web-site: [www.DiabloSquadron.org](http://www.DiabloSquadron.org) or phone Lt. Bill Hart @ 925-377-2628. The **United States Power Squadrons** is the largest nonprofit boating education organization in the country and has been teaching boating principles since 1914. We teach a number of two-hour seminars and over a dozen classes that run weeks in duration. Check our web site for the breadth of courses and seminars taught.
